Dear John:

Thank you for your letter of 28 June regarding the possible consideration of the so-called Julian Farms in Montgomery County as a site for the CIA headquarters.

As you know, we have greatly reduced the number of sites which we are presently considering for the location of the proposed new headquarters. However, if none of these sites is finally selected, we will again canvas all the sites that have been suggested, and at that time we will certainly include the Julian Farms in our studies.

With kindest regards.

Sincerely,

MAILED
